SOFTWARE DEVELOPER:

Driven and innovative frontend developer with 2+ years of experience in creating responsive and visually appealing web applications. Proficient in HTML, CSS, JavaScript, and modern frontend frameworks like React and Angular. Dedicated to crafting user-centric experiences and staying updated with industry trends. Seeking to leverage my skills and passion for frontend development to contribute to a dynamic team and create cutting-edge digital solutions.

TECHNOLOGY COMPETENCIES

- | | | |
|--------------|--------------|-------------------|
| • Angular | • Rest Api's | • AWS Cloud (EC2) |
| • React | • MongoDB | • Git |
| • Node.js | • PostgreSQL | • linux |
| • Express.js | • Snowflake | • Networking |
-

PROFESSIONAL EXPERIENCE

Fluree

Sep2023 - Present

Software Developer

- Skilled in developing Angular components and REST APIs in Node.js for the FlureeSense Product, with experience in React/Next.js for the Nexus Product.
- Specialized in designing and optimizing databases in PostgreSQL, along with migrating legacy applications to contemporary frameworks. Implemented a data synchronization mechanism between PostgreSQL and Snowflake.
- Actively involved in Agile methodologies and teamwork across different functions.

Teansoft

Sep 2022- Aug 2023

Platform Developer

- Built a Hiring Platform hyrnw which is live from Scratch: Architected, developed, and launched a robust hiring platform using the MEAN stack (MongoDB, Express.js, Angular, Node.js) to provide a seamless experience for job seekers and recruiters.
 - AWS Cloud Deployment: Deployed and managed the platform on AWS, utilizing EC2 instances, Lambda functions, and load balancers to ensure high scalability and reliability under heavy traffic.
 - Collaborative Product Architecture: Partnered with business stakeholders to define the system architecture, balancing business goals with technical feasibility and driving product alignment from inception to launch.
 - Operational Efficiency and Growth: Successfully launched the platform on a tight deadline, contributing significantly to startup growth by delivering a highly responsive, scalable, and efficient platform that meets user and business needs.
-

EDUCATION

Bachelor of Engineering

2018 - 2022

The Oxford College Of Engineering , Bengaluru

PROJECTS

- Crafted an Uber replica utilizing Next.js
- Established an online job portal with the MEAN Stack
- Engineered a LinkedIn auto-connect Chrome extension using React
- Designed a third-party plugin for Adobe Illustrator for random color palette selection with React
- Created a Flappy Bird game using Phaser.js
